PROFILE

I am a motivated and detail-oriented Full-Stack Developer and Data Analyst with expertise in building scalable web applications and extracting insights from data. I possess skills in React, Node.js, MongoDB, Express, Python, SQL, and Excel, along with strong problem-solving abilities and a passion for leveraging technology and data-driven decision-making to drive business growth. I am eager to contribute my technical expertise in a dynamic team environment.

PROJECTS

Airline arrival/departure/delay/Analysis 🔗
Project focused on analyzing transportation data.

12/2024

- Developed a Python-based data analysis project to examine airline arrival, departure, and delay patterns using Pandas, NumPy, Matplotlib, and Seaborn.
- Processed and visualized large datasets to identify trends, peak hours, and key delay factors.
- Extracted meaningful insights to enhance operational efficiency and data-driven decision-making.

Supermarket Data-Analysis
Data analysis project for retail.

12/2024

- Developed a Python-based data analysis project to analyze supermarket sales using Pandas, NumPy, Matplotlib, and Seaborn.
- Processed sales data to identify top-selling products, customer preferences, and regional sales trends.
- Implemented data visualization techniques to gain insights into gender distribution, sales by category, and regional performance.

Food Ordering System 🔗
Development of online application.

02/2024 – 06/2024

- Developed a dynamic Online Food Ordering System for THE NADEEM'S using React.js, Node.js, Express.js, and MongoDB.
- Enabled customers to browse menus, place orders, make secure payments, and track deliveries in real-time.
- Built an admin dashboard for managing orders, menus, and users efficiently.
- Collaborated in a team of two to ensure a scalable, high-performance, and seamless user experience.

AH properties 🔗
Front-end development project.

08/2024 – present

- Developed a property dealing website using HTML, CSS, and JavaScript, providing users with property listings and essential details.
- Implemented a contact form to collect emails for inquiries, facilitating seamless communication between buyers and sellers.
- Designed a responsive and visually appealing interface to enhance user experience and accessibility across devices.

SKILLS

technical/soft skills

- **Front-End Development:** React.js, JavaScript, HTML, CSS, Bootstrap, Tailwind CSS, GSAP
- **Back-End Development:** *Node.js, Express.js, MongoDB*
- **Database Management:** *SQL, MongoDB*
- **Data Analysis:** *Python (Pandas, NumPy, Matplotlib), SQL, Excel*
- **Version Control:** *Git, GitHub*
- **API Integration:** *REST APIs, Google Forms*
- **Deployment & Hosting:** *Vercel, Netlify,Render*
- **Tools & Platforms:** *Visual Studio Code, Postman,Thunder-client*
- **Team Collaboration**
- **Agile Development**
- **Problem-Solving**
